M/s Aqua International is a quality-sensitive business house engaged in supplying a wide assortment of feminine hygiene products of international quality like Sanitary Napkins, Automatic/Manual Sanitary Napkin Vending Machines and Incinerators. Working on the strong ethical values, Aqua is ardently committed for the fair and true business deals. We never compromise on the quality of our products. Our products and services are focused on improving women's health and lives.

- **To increase awareness among adolescent girls on Menstrual Hygiene.**

Menstrual hygiene and management can be essential in ensuring that your everyday life is not interrupted by menstruation. It ensures that you can continue with your daily routine such as going to school, going to work or doing household chores. It can also prevent potential situations of embarrassment and in turn, make you feel confident about yourself and your body. In this sense, maintaining proper menstrual hygiene is important for your wellbeing and development.

It is difficult to predict when and where you will experience your first menstruation (menarche). Being in a situation in which you discover blood coming out from the vagina for the first time can be extremely confusing if you're not prepared for it in advanced. So, having prior knowing about menstruation-what is menstruation and how to deal with it-can help you in dealing with such a situation in a much better way. Being well-prepared will help you prevent embarrassment that may result from this intensely private moment.

For this we actively participate with the help of various NGO's in workshops and seminars educating girls on the Menstrual Hygiene.

- **To increase use of high quality sanitary napkins.**

Sanitary napkin, is an essential personal hygiene product and an absorbent item worn by a woman while she is menstruating, recovering from vaginal surgery, for lochia (post birth bleeding), abortion, or any other situation where it is necessary to absorb a flow of blood from a woman's vagina.

Due to the special physical characteristics of women, the sanitary napkin is the women's indispensable "friend" but this friend may bring considerable troubles when it is not treated well. We are constantly trying to educate the masses (females) on how a sanitary pad should be selected. Demonstration for this is also being given by our team in all possible places.

- **To increase immediate access of high quality sanitary napkins.**

For this our team is constantly working and having tie ups with many public and private institutions to use sanitary napkin vending machine in all female washrooms to meet menstrual emergencies and save the females from embarrassment.

- **Build a clean environment as a part of Swach Bharat Abhiyan.**

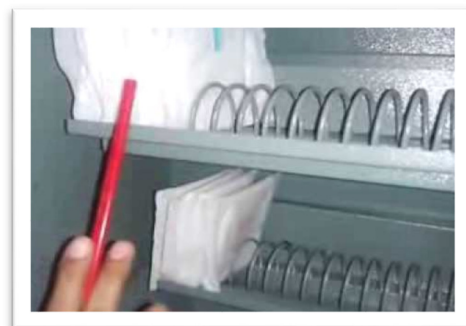

Generally disposal of used sanitary napkin is a really big problem for any institution coz girls dispose these in an unhygienic manner or flush them down leading to clogging and other problems. For this we are educating each institutions for installing sanitary napkin incinerators for the safe disposal of used sanitary napkins. Knowledge about how to use these machines is been also given to females through seminars.

## OUR PRODUCT RANGE

### Sanitary Napkin Vending Machines (Manual and automatic)

### TECHNICAL DATA

Type	Details:
Housing	1.2 mm Sheet metal - Powder coated for superior finish
Vend Capacity	30 – 100 Napkins
Mounting	Wall mounting
Operation	Manual/ Automatic
Weight	9 kg(approx.)
Unit Dimension	510x145x310 mm(approx.)
Doors	Single Door Operation
Coin Acceptor	Mechanical/Single Value Coin Acceptor for 5 Rs coin
Dispenses	Tri-Folded Individually Packed Slim / ultra slim Sanitary Napkins (240/280mm)
